6TH TRIENNIAL IFFAS SCIENTIFIC MEETING

PRELIMINARY PROGRAMME

Pre-Congress: EFAS Advanced Symposium 28th September 2017 WWW.efas.co WWW.iffas.org

WELCOME

Dear Colleagues,

New ideas, news faces, and a new meeting city await you at the 6th Triennial Scientific Meeting of the International Federation of Foot & Ankle Societies in Lisbon. The vibrant capital city of Portugal offers a rich and varied history, interesting attractions, a beautiful setting, and wonderful climate. The IFFAS Council looks forward to welcoming you to Lisbon and the IFFAS Meeting.

The IFFAS Meeting will present stimulating educational sessions...the latest products for our specialty...and the opportunity to see old friends and meet new acquaintances from around the world. Offered every three years, the IFFAS meeting is a special opportunity for orthopaedic foot and ankle professionals worldwide to come together to exchange ideas and focus on important clinical and research topics.

The record number of abstracts received from around the globe demonstrates the abundance of talent and expertise within our specialty and its member organizations. The IFFAS Scientific Committee and the Symposia Committee have planned an exceptional program featuring 80 podium papers, a dozen symposia with international expert faculty from the four federations of IFFAS, and a large number of E-Posters. We are pleased to acknowledge the committee members for their contributions and the congress organiser/local host – the European Foot and Ankle Society – for its administration of the meeting.

The European Foot and Ankle Society (EFAS) invites you to also register for the Pre-Congress EFAS Advanced Symposium, the day preceding the IFFAS meeting. Combined Registration is offered for participation in the EFAS Advanced Symposium on 28th September and the IFFAS Meeting 29th - 30th September.

We look forward to meeting you in Lisbon!

Charles Saltzman, MD IFFAS President

Martinus Richter, MD, PhD
IFFAS Vice President /Program Chair

CONGRESS HOST - IFFAS

9400 W. Higgins Road, Suite 220, Rosemont, IL 60018 USA

Tel: 847-430-5100 Fax: 847-692-3315 E-mail: iffas@iffas.org Website: www.iffas.org

CONGRESS ORGANISERS AND LOCAL HOST - EFAS

EFAS ADVANCED SYMPOSIUM THURSDAY 28TH SEPTEMBER 2017

PROGRAMME

PRE-IFFAS Meeting Event

	, E 8 O
08.00 -08:30 08:30-08:40	Registration Welcome by M. Delmi, EFAS President and D. Singh, Chair EFAS Scientific Committee
08:40-10:15	SESSION 1: PRIMARY ADULT ACQUIRED FLAT
Case Discuss	FOOT DEFORMITY - Moderators: D. Singh and M. Delmi sion: A 65 year old active female (BMI 30) with stage 2B tibialis posterior insufficiency, severe forefoot abduction, sagittal laxity at naviculo-cuneiform level and hallux valgus
08:40-08:45 08:45-08:53 08:53-09:01 09:01-09:09 09:09 -09:17 09:17- 09:25 09:25-09:33 09:33-10:15	Case presentation D. Singh A calcaneal osteotomy is mandatory F. Krause At what point is a lateral column lengthening obligatory? W.C. Lee What is the role of spring ligament reconstruction in this case? Y. Tourné This patient needs a medial column procedure (Cotton Osteotomy/Lapidus) C. Saltzman This patient needs an arthroreisis screw – My approach A. Viladot The threshold to fuse? How does BMI affect decision making in this case? A. Witteveen Discussion
10:15-10:45	Coffee Break and Exhibition
10:45-12:15 10:45-10:53 10:53-11:01 11:01-11:09	SESSION 2: THE FLATFOOT SOFA DEBATE: WHAT WOULD YOU DO IN THIS SCENARIO? - Moderators: D. Redfern and A. Viladot Flat foot with severe tarso-metatarsal arthritis D. Singh Flat foot associated with a tarsal coalition J. Hamel Recurrent arch collapse after flatfoot reconstruction A. Witteveen
11:09-11:17 11:17-11:25 11:25-11:33 11:33-12:15 12:15-13:15	Persistent flat foot/valgus heel after triple arthodesis B. Sangerozan Is FDL Transfer necessary? M. Monteagudo Double or Triple Arthrodesis F. Alvarez Discussion EFAS General Assembly
13.15-14:30	Lunch, Exhibition & Industry Workshops (Workshops start at 13:40-14:20)
14:30-16:00 Case 1:	SESSION 3: INFECTIVE SCENARIOS - Moderators: J. L. Besse and F. Vannini A 60 year old male who had an ankle arthroplasty 3 months earlier presents with a painful swollen ankle
14:30-14:35 14:35-14:42 14:42-14:49 14:49- 15:10	Case presentation I would retain the implants (My algorithm for infected TAR) N. Corte-Real This needs revision (My algorithm for infected TAR) X. Martin Discussion
Case 2:	A 40 year old diabetic presents with an ulcer on the sole of the foot.
15:10-15:15 15:15-15:22 15:22-15:29 15:29-15:36 15:36-15:43 15.43 – 16.10	He has a rocker bottom foot secondary to a previous Charcot of the midfoot Case presentation How I would investigate? V. Valderrabano The role and limitations of non-operative treatment C. Walker My preferred approach - External fixation in this scenario F. Robinson My preferred approach - Staged fusion is the best option V. Kavarthapu Discussion
16.10-16.40	Coffee Break and Exhibition
16.40-17.55	SESSION 4: THE EFAS LISBON CLINIC Cases submitted by delegates who must

(Coach Transfers to Patio de Gale)
Included in Combined Registration or Registration IFFAS meeting only

PRELIMINARY PROGRAMME FRIDAY 29TH SEPTEMBER 2017

MAIN IFFAS Meeting

ROOM: Auditorium I

07:15 Registration

07:50 Opening Ceremony ROOM: Auditorium I

C. Saltzman, M. Richter

SESSION 1 08:00 - 10:00

JOINT PRESERVING STRATEGIES (NON ANKLE)

Moderators: C. Ortiz, M. Easley

08:00 - 08:12	Joint preserving surgery in severe forefoot disorders L.S. Barouk
08:12 - 08:24	Malunited Lisfranc Injuries; Joint sparing treatments to keep it functional D. Baumfeld
08:24 - 08:36	Long-term outcome of joint-preserving surgery by combination metatarsal
	osteotomies for shortening (CMOS) for forefoot deformity in patients with rheumatoid
	arthritis N. Hisateru
08:36 - 08:48	Current strategies of Joint Preserving Surgeries for Great Toe Arthritis:
	The Options and the Evidence J. Baumhauer
08:48 - 09.16	Discussion
09:16 - 09:22	Development of a cadaveric Hallux Rigidus model. Biomechanical testing D. Zanolli
09:22 - 09:28	Assessment of Haglund's syndromes with a new radiologic measure Y. Tourné
09:28 - 09:34	Forefoot surgery in depressed patients: To operate or not to operate? J. Amestoy
09:34 - 09:40	A Comparative Study of Modified Mitchells and Scarf Osteotomies for
	Moderate Hallux Valgus B. Lau
09:40 - 09:46	The Use of 3D Prints to Compare the Efficacy of Different Calcaneal
	Osteotomies for Heel Varus G. Pfeffer
09:46 - 10:00	Discussion

SESSION 2 08:00 - 10:00

10:00 - 10:30

OBTAINING AND MAINTAINING A STABLE SYNDESMOSIS

Coffee Break, Exhibition and Posters

OBTAINING AND MAINTAINING A STABLE STINDESMOSIS		
	Moderators: A. Viladot, H. Yip	ROOM: Auditorium II
08:00 - 08:12	Intraoperative techniques of assessing the anatomic reduct	tion of the
	fibula and posterior fragment T. Mittlmeier	
08:12 - 08:24	Strategies to obtain syndesmosis reduction in acute trauma	a M. Sakaki
08:24 - 08:36	Is Open reduction for Syndesmotic injury an optimal treatm	nent? R. Simon
08:36 - 08:48	Arthroscopic Evaluation of Subtle Syndesmotic Instability G	G. Guyton
08:48 - 09.16	Discussion	
09:16 - 09:22	Weightbearing Versus Gravity Stress Radiographs For Stab	ility Evaluation
	of SER Fractures Of The Ankle A. Seidel	
09:22 - 09:28	Chronic syndesmotic injuries; Treatment and evolution S. C	atalán Amigo
09:28 - 09:34	Histomorphometrical changes in cartilage, synovial cells an	id synovial fluid after
	ankle fracture A.L. Godoy Santos	
09:34 - 09:40	Abnormal Gutter Geometry as a Risk Factor of Chronic Ank	de Instability Y. Tochigi
09:40 - 09:46	Morphology of the incisura fibularis at the distal tibiofibular	syndesmosis
	in the Japanese population I. Tonogai	
09:46 - 10:00	Discussion	

SESSION 3 10:30 - 12:30

PLANTAR PLATE REPAIR OR NOT

	Moderators: M. Monteagudo, I. Rosa	ROOM: Auditorium I
10:30 -10:42	The evolution of my algorithm to the plantar plate problem	
10:42 -10:54	The Plantar Plate Repair: A significant step ahead to rees the lesser MTP joints C. Nery	tablish the balance of
10:54 -11:06	Open reduction and ligament reconstruction for complete of the lesser metatarsophalangeal joint with hallux valgus	
11:06 -11:18	Surgical strategies, pearls and pitfalls for the plantar plate	e injuries P. Phisitkul
11:18 – 11:45	Discussion	
11:45 - 11:51	Does the first metatarsal bone twist itself in hallux valgus' CT scans K. Maruyama	? - Investigations with
11:51 - 11:57	Comparison between two techniques in hammertoe surge	ery after 5 years P. Ceccarini
11:57 - 11:03	Gait and Footprint Analysis in Patients with Hallux Valgus	N. Ito
11:03 - 11:09	A Novel Method to Evaluate Microvasculature of the Plan Support Repair? F. Finney	tar Plate: Does the Biology
11:09 - 12:15	The results of scarf osteotomy without implant stabilization	on H. Liszka
12:15 - 12:30	Discussion	

SESSION 4 10:30 - 12:30

ANKLE FUSION OR TAR

	Woderators. O. Sanzman, H. Rolloed
10:30 -10:42	Either way it is all about the Forces I. Winson
10:42 -10:54	Ankle Arthrodesis versus TAR M. Carrasco
10:54 -11:06	Managing Complications and Osteolysis K.B. Lee
11:06 -11:18	Comparing effectiveness of ankle arthrodesis and ankle replacement using patient
	self –reported outcomes and wearable technology B. Sangeorzan
11:18 - 11:45	Discussion
11:45 - 11:51	Revision surgery using ceramic talar prosthesis for total ankle arthroplasty R. Katsui
11:51 - 11:57	Comparison of Intermediate to Long-Term Outcomes of Total Ankle Arthroplasty in
	Varus and Valgus Alignment Compared with Neutral Alignment K.B. Lee
11:57 - 12:03	The effect of deformity and hindfoot arthritis on mid-term outcomes of
	ankle replacement and fusion M. Penner
12:03 - 12:09	MR Imaging of Ankle Arthroplasty Implants: Findings of Normal and
	Symptomatic Patients C. de Cesar Netto
12:09 - 12:15	Contact Stresses in a Fixed-Bearing Total Ankle Replacement: A Finite
	Element Analysis N. Martinelli
12:15 - 12:30	Discussion
	Londo Edillotter Modeline and E Broken

ROOM: Auditorium II

12:30 – 13:45 Lunch, Exhibition, Workshops and E-Posters

Moderators: C. Saltzman, H. Kofoed

SESSION 5 13:45 - 15:45 CENTRAL SESSION

FOREFOOT: MINIMALLY INVASIVE OR NOT ROOM: Auditorium I

	Moderators: M. Delmi, J. W. Lee
13:45 - 13:57	Shortening chevron osteotomy for treatment of hallux rigidus M. Gomes
13:57 - 14:09	First Metatarsophalangeal Arthrodesis using endomedullary screw fixation. Open
	or percutaneus P. Sotelano
14:09 - 14:21	Hallux Valgus Minimal Invasive or Not X. Xy
14:21 - 14:33	Big surgery for big forefoot deformities: it's not about the incision but
	the result W.H. Davis
14:33 - 15:00	Discussion
15:00 - 15:06	Comparison Between Proximal Chevron and Distal Chevron Osteotomy in Moderate to
	Severe Hallux Valgus Patients Undergoing Simultaneous Bilateral Correction G.W. Lee
15:06 - 15:12	Comparison of the outcomes between two osteotomies for second
	metatarsophalangeal joint dislocation T. Kokubo

15:12 - 15:18	Minimally invasive distal linear metatarsal osteotomy for treatment of hallux valgus T. Hagio
15:18 - 15:24 15:24 - 15:30	Percutaneuous Distal Osteotomy (Pdo) For Recurrent Hallux Valgus B. Magnan Minimally invasive chevron osteotomy vs open chevron for hallux valgus
15:30 - 15:45	correction: midterm results G. Kaufmann Discussion
15:45- 16:15	Coffee Break, Exhibition, Posters
	16:15 - 18:00
DIABETES/C	HARCOT ROOM: Auditorium I
	Moderators: K. Hvaal, Y. Tanaka
16:15 - 16:27	Surgical treatment of Charcot deformities with external frame A. Volpe
16:27 - 16:39	Midfoot Charcot Fixation; What do I prefer G. Khazen
16:39 - 16:51	Tendon Contracture as The Determinant of Outcome in the Treatment of Diabetic
10.51 17.00	Foot Problems A. Primadhi
16:51 - 17:03	Management of the Diabetic/Neuropathic Patient with an Ankle Fracture J. Johnson
17:03 – 17.15 17:15 - 17:21	Discussion The Critical Rela of Synavigum in Charact Neuropythranathy 7, 7hong
17:15 - 17:21	The Critical Role of Synovium in Charcot Neuroarthropathy Z. Zhang The effects of multiple risk factors on the functional outcomes after the
17.21 - 17.27	Broström procedure E.H. Shin
17:27 - 17:33	Radiographic results of percutaneous procedures for severe hallux valgus deformities
17.27 - 17.55	T. Kurashige
17:33 - 17:39	Mobile- vs. Fixed-Bearing Total Ankle Prostheses: A Systematic Review and
11.00 11.00	Meta-Analysis A. Barg
17:39 - 17:45	First metatarsophalangeal arthrodesis- are post-operative true lateral
	x-rays necessary? T. Hossain
17:45 - 18:00	Discussion
17:45 - 18:00	
	Discussion
SESSION 7	Discussion 16:15 - 18:00
	Discussion 16:15 - 18:00 ROOM: Auditorium II
SESSION 7 TRAUMA	Discussion 16:15 - 18:00 ROOM: Auditorium II Moderators: B. Sangeorzan, G. Khazen
SESSION 7 TRAUMA 16:15 - 16:27	Discussion 16:15 - 18:00 ROOM: Auditorium II Moderators: B. Sangeorzan, G. Khazen Fractures of the posterior malleolus – old dogmas and new concepts? S. Rammelt
SESSION 7 TRAUMA 16:15 - 16:27 16:27 - 16:39	Discussion 16:15 - 18:00 ROOM: Auditorium II Moderators: B. Sangeorzan, G. Khazen Fractures of the posterior malleolus – old dogmas and new concepts? S. Rammelt Isolated Lateral Malleolus Ankle Fractures: what is stable and what is not? A. Sakellariou
SESSION 7 TRAUMA 16:15 - 16:27 16:27 - 16:39 16:39 - 16:51	Discussion 16:15 - 18:00 ROOM: Auditorium II Moderators: B. Sangeorzan, G. Khazen Fractures of the posterior malleolus – old dogmas and new concepts? S. Rammelt Isolated Lateral Malleolus Ankle Fractures: what is stable and what is not? A. Sakellariou Treatment for the residual deformities in the foot injuries S. Ozeki
SESSION 7 TRAUMA 16:15 - 16:27 16:27 - 16:39 16:39 - 16:51 16:51 - 17:03	Discussion 16:15 - 18:00 ROOM: Auditorium II Moderators: B. Sangeorzan, G. Khazen Fractures of the posterior malleolus – old dogmas and new concepts? S. Rammelt Isolated Lateral Malleolus Ankle Fractures: what is stable and what is not? A. Sakellariou Treatment for the residual deformities in the foot injuries S. Ozeki Lisfranc Injuries: What should we be doing? C. DiGiovanni
SESSION 7 TRAUMA 16:15 - 16:27 16:27 - 16:39 16:39 - 16:51 16:51 - 17:03 17:03 - 17.15	Discussion 16:15 - 18:00 ROOM: Auditorium II Moderators: B. Sangeorzan, G. Khazen Fractures of the posterior malleolus – old dogmas and new concepts? S. Rammelt Isolated Lateral Malleolus Ankle Fractures: what is stable and what is not? A. Sakellariou Treatment for the residual deformities in the foot injuries S. Ozeki Lisfranc Injuries: What should we be doing? C. DiGiovanni Discussion
SESSION 7 TRAUMA 16:15 - 16:27 16:27 - 16:39 16:39 - 16:51 16:51 - 17:03	Discussion 16:15 - 18:00 ROOM: Auditorium II Moderators: B. Sangeorzan, G. Khazen Fractures of the posterior malleolus – old dogmas and new concepts? S. Rammelt Isolated Lateral Malleolus Ankle Fractures: what is stable and what is not? A. Sakellariou Treatment for the residual deformities in the foot injuries S. Ozeki Lisfranc Injuries: What should we be doing? C. DiGiovanni Discussion Conservative treatment Versus Repair Deltoid in SER Type IV Equivalent Ankle
SESSION 7 TRAUMA 16:15 - 16:27 16:27 - 16:39 16:39 - 16:51 16:51 - 17:03 17:03 - 17.15 17:15 - 17:21	Discussion 16:15 - 18:00 ROOM: Auditorium II Moderators: B. Sangeorzan, G. Khazen Fractures of the posterior malleolus – old dogmas and new concepts? S. Rammelt Isolated Lateral Malleolus Ankle Fractures: what is stable and what is not? A. Sakellariou Treatment for the residual deformities in the foot injuries S. Ozeki Lisfranc Injuries: What should we be doing? C. DiGiovanni Discussion Conservative treatment Versus Repair Deltoid in SER Type IV Equivalent Ankle Fracture: A Prospective Study C. Rungprai
SESSION 7 TRAUMA 16:15 - 16:27 16:27 - 16:39 16:39 - 16:51 16:51 - 17:03 17:03 - 17.15	Discussion ROOM: Auditorium II Moderators: B. Sangeorzan, G. Khazen Fractures of the posterior malleolus – old dogmas and new concepts? S. Rammelt Isolated Lateral Malleolus Ankle Fractures: what is stable and what is not? A. Pre-Congress: **EFAS Advanced Symposium** Lisbon, Portugal 28 September 2017 **www.efas.co**

SATURDAY 30[™] SEPTEMBER 2017

SESSION 8 08:00 - 10:00 SPORTS - ARTHROSCOPY

		7111111100001 1
		Moderators: C. Nery, Y. Tourné ROOM: Auditorium I
	08:00 - 08:12	Treatment of the posterior ankle impingement by arthroscopy,
		Anatomic Study and surgical techniques X. Martin Oliva
	08:12 - 08:24	Foot and ankle endoscopy indications and limits C. Ortiz
	08:24 - 08:36	Arthroscopic repair/reconstruction for lateral instability of the ankle M. Takao
	08:36 - 08:48	Arthroscopic Treatment of Talus Osteochondral Defects E. Giza
-	08:48 – 09.16	Discussion
	09:16 - 09:22	Effect of Initial Graft Tension at Calcaneofibular Ligament Reconstruction
		for Ankle Stability Y. Sakakibara
	09:22 - 09:28	Safe Zone for the Plantar Portal: A Cadaveric Study S. Maeda
	09:28 - 09:34	Simultaneous Reconstruction of the Medial and Lateral Collateral Ligaments
		of the Ankle T. Yasuda
	09:34 - 09:40	Influence of learning curve for surgical complications and no influence on
		patient related complications A. Makulavicius
	09:40 - 09:46	The influence of a calcaneal medial osteotomy on hindfoot alignment
		using a pre- and post-operative weightbearing CT A. Burssens
-	09:45 - 10:00	Discussion

SESSION 9 08:00 - 10:00

10:00 - 10:30

WHAT'S NEW IN FOOT AND ANKLE

VVII O INEVV	IN FOOT AND ANKLE	
	Moderators: A. Gomes, A. Barg	ROOM: Auditorium II
08:00 - 08:12	Need for new concepts in joint implant surgery H. Kofoed	
08:12 - 08:24	Treatment of Chronic deltoid ligament insufficiency, our option	on: repair
	with Internal Brace™ augmentation G. Carcuro	
08:24 - 08:36	New practical applications of artificial total talar prosthesis Y.	Tanaka
08:36 - 08:48	What's new in Ankle Arthritis Outcomes: Lessons learned from	m a Canadian
	Outcomes Database A. Younger	
08:48 - 09.16	Discussion	
09:16 - 09:22	Oxford Foot Model and weight bearing CT (pedCAT):Compar	ison
	of tibia-hindfoot angle and arch height M.R. Wachowsky	
09:22 - 09:28	Combination of PedCAT with Pedography Shows Relationshi	p of Foot
	Center and Center of Gravity M. Richter	
09:28 - 09:34	Flatfoot Hindfoot Alignment: A Comparison of Clinical Asses	sment and
	Weightbearing ConeBeam CT C. de Cesar Netto	
09:34- 09:40	The Use of Weight-Bearing CT Scan in the Evaluation of Hindfe	
09:40 - 09:46	Weightbearing CT in normal hindfoot alignment; Presence of	a
	constitutional valgus? A. Burssens	
09:45 - 10:00	Discussion	

Coffee Break, Exhibition and Posters

SESSION 10 10:30 - 12:30

TENDON-LIGAMENT

I E I I D O I I E I O		
	Moderators: M. Penner, W.C. Lee	ROOM: Auditorium I
10:30 - 10:42	Peroneal tendons pathology in ankle instability. An endosco	opic point of
	view J. Vega	
10:42 - 10:54	State of the art in deltoid ligament injuries G. Slullitel	
10:54 - 11:06	Insertional Achilles tendinopathy – two different pathologies	
	for non-operative treatments OR Anatomical consideration	
	plantar fasciopathy - short-term effect of hyaluronic acid in	
11:06 - 11:18	Evolution to MIS for Ankle Stabilization: A comprehensive in	
	using the principals of Anatomy, Biomechanics and Eviden	ce Based Medicine
	M. Glazebrook	
11:18 - 11:45	Discussion	
11:45 - 11:51	Tenogenic differentiation of tonsil and bone marrow-derived	d mesenchymal
	stem cells H. Kim	
11:51 - 11:57	Optimization of Tenocyte Lineage-Related Factors from Tor	
	Mesenchymal Stem Cells using Design of Experiments S.S	. Kwon
11:57 - 12:03	Biomechanical comparison of circumtibial and transmembra	ranous posterior tibial
	tendon transfer E. Wagner	
12:03 - 12:09	Achilles tendinopathy induced by serial injections of collage	enase: a new
	experimental model C. de Cesar Netto	
12:09 - 12:15	Therapeutic potential of Mesenchymal Stem Cells to treat A	Achilles Tendon Injuries
	M.H. Costa Vieira	
12:15 - 12:30	Discussion	

SESSION 11 10:30 - 12:30

CARTILAGE REPAIR

O/MITTE KOLT	Moderators: B. Hintermann, Y.Takakura ROOM: Auditorium II
10:30 - 10:42	Osteochondral lesion of talus: What is the problem & solution? J.W. Lee
10:42 - 10:54	Microfracture for osteochondral lesion of the talus – is it still the gold standard for treatment J. McCormick
10:54 - 11:06	Osteochondral lesions treated with cancellous bone grafting and periosteal flap. My experience S. Guerrero
11:06 - 11:18	AMIC surgery for osteochondral Lesions of the Talus V. Valderrabano
11:18 - 11:45	Discussion
11:45 - 11:51	Anatomic feature of deltoid ligament attachment in posteromedial osteochondral lesion of talar dome T. Nakasa
11:51 - 11:57	Matrix-Associated Stem Cell Transplantation (MAST) in Chondral Defects of the Ankle is Safe and Effective M. Richter
11:57 - 12:03	Primary versus Secondary Osteochondral Autograft Transplantation in Patients with Large Sized OLTs K.H. Park
12:03 - 12:09	Magnetic Resonance T1rho Mapping of Articular Cartilage Grafts After Autologous Osteochondral Transplantation for Osteochondral Lesions of the Talus: A Longitudinal Evaluation N. Haraguchi
12:09 - 12:15	Evaluation of reproducibility of the Magnetic Resonance Observation of Cartilage Repair Tissue (MOCART) N. Martinelli
12:15 - 12:30	Discussion
12:30 - 13:45	Lunch, Exhibition, Workshops & E-Posters

SESSION 12 13:45 - 15:45 CENTRAL SESSION

ANKLE-JOINT PRESERVING MEASURES

ANKLE-JOIN	T PRESERVING MEASURES	ROOM: Auditorium I
	Moderators: M. Richter, I. Winson	
13:45 - 13:57	Osteotomies around the ankle, principles and planning E. \	Vagner
13:57 - 14:09	Effect of Osteotomies around the Ankle B. Hintermann	
14:09 - 14:21	Ankle Joint Preserving Measures W.C. Lee	
14:21 - 14:33	Ankle Distraction: How to succeed D. Beaman	
14:33 - 15:00	Discussion	
15:00 - 15:06	Antinociceptive effect of hyaluronic acid sodium on ankle of	steoarthritis model
	S. Jimbo	

15:06 – 15:12	Preoperative Patient-reported Outcome Measures Predict Success in Patients with Ankle Arthritis F. Waly
15:12 - 15:18	Relationship between Isokinetic Muscle Strength and Functional Test in Chronic Ankle Instability Y. H. Park
15:18 - 15:24	Weight-bearing CT analysis of chronic lateral ankle instability: a multivariate study of 124 feet F. Lintz
15:24 - 15:30	Weight-bearing Computed Tomography Findings in Varus Ankle Osteoarthritis: Abnormal Internal Rotation of the Talus in Axial Plane M.H. Kim
15:15 - 15:45	Discussion
15:45 - 16:15	Coffee, Exhibition, E-Posters
SESSION 13	3 16:15 - 17:30
FREE PAPER	
16:15 - 16:21	Moderators: J. C. Neto, A. Younger Polymorphisms of estrogen receptors in menopausal women with posterior tibial tendon dysfunction P.A. Pontin
16:21 - 16:27	Conservative Treatment for Plantar Fasciitis: A Prospective Randomized Study among Three Methods C. Jasmin
16:27 - 16:33	Randomized control study of toe exercise for prevention from fall in elderly people K. Amaha
16:33 – 16:39	Novel concept for preserving severe valgus ankle osteoarthritis with large talar tilt: Realignment of the foot with triple arthrodesis M.H. Kim
16:39 - 16:45	Which surgical treatment is better for plantar fasciitis? A randomized controlled trial C. Gamba
16:45 - 16:51	Minimal important change, measurement error and responsiveness for the SEFAS M. Cöster
16:51 - 16:57	Defining Gastrocnemius Tightness-A study on 400 participants without foot and ankle pathology O. Chan
16:57 - 17:03	Changes in the ankle joint and hindfoot alignment following varus deformity correction of the knee B.O. Jeong
17:03 - 17:09	Evaluation of rotation of first metatarsus with hallux valgus by computed tomography Y. Nakamoto
17:09 - 17:15 17:15 - 17:30	Intramedullary plate fixation in hallux valgus S. Mugrabi Discussion
	21004001011
SESSION 14	4 16:15 - 17:30
FREE PAPER	
16:15 - 16:21	Moderators: J. Nunley, S. Rammelt Phenol Injection for Morton's Neuroma Under Elettroneurographic Guidance B. Magnan
16:21 - 16:27	Repeatability of a multi-segment foot model with a 15-marker set in healthy children E.J. Kim
16:27 - 16:33	Translation, cultural adaptation and validation of the Foot Function Index-revised (FFI-R) K. Stéfani
16:33 - 16:39	Efficacy of dermal fenestration technique on soft tissues in distal tibia and fibula fractures U. Akgun
16:39 - 16:45 16:45 - 16:51	Minimum 10-19 Years; Follow-Up of the Star Total Ankle Perform in the USA J. Nunley Deltoid ligament injury patterns in external rotation ankle injuries, a cadaveric study M. Cooper
16:51 - 16:57	Clinical Outcome for Total Ankle Replacement in Patients Younger Than 50 Years D. Spuehler
16:57 - 17:03 17:03 - 17:09	Medializing Calcaneal Osteotomy (MCO) For Acquired Adult Flatfoot: E. Samaila Percentage of articular surface debridement is equivalent in arthroscopic and open ankle fusions M. Anderson
17:09 - 17: 15 17:15 - 17:30	Revision Rate of Total Ankle Replacement in Patients Younger Than 50 Years N. Zullig Discussion

CLOSING CEREMONY

ROOM: Auditorium I

Pre-Congress: **EFAS Advanced Symposium** Lisbon, Portugal 28 September 2017 www.efas.co

HOST CITY AND CONGRESS VENUE

LISBON, PORTUGAL

Lisbon is one of the oldest cities in the world, and the oldest in Western Europe, predating other modern European capitals such as London, Paris and Rome by centuries. A cosmopolitan capital with a Mediterranean climate, Lisbon offers vast cultural experiences to visitors . and it is a city is also proud to maintain its traditions. Lisbon City has a rich history dating back to the Roman Empire. Julius Caesar himself made it a Municipium. It has several historical sites with the Belem Tower and the Jeronimos Monastery being declared World Heritage Sites by UNESCO. The venue for the congress is located close to the point in Belém at The Discoveries Monument, where Vasco da Gama embarked on his vovage from Portugal to India in 1497, and it was here too that Christopher Columbus anchored on his way back to Spain following his historic discovery of the Americas. This city of discoveries is the perfect host for the World Congress: Foot and Ankle 2017.

Congress Venue: Lisboa Congress Centre, Praça das Indústrias, 1300-307 Lisboa

The Centro de Congressos de Lisboa is located near the Tagus River and close to the historic buildings of Belém quarter.

Travel to Lisbon, Portugal

By Air: Lisbon International Airport is located 7 km north of the capital Lisbon and is almost in the city. The airport is served by all major international airlines and budget airlines.

appointed as the Official Airline Network for

World Congress Foot and Ankle 2017; IFFAS Triennial Meeting.

The Star Alliance member airlines are pleased to be

SAVE UP TO 20% ON TRAVEL WITH THE STAR ALLIANCE™ NETWORK

To obtain the Star Alliance Conventions Plus discounts please visit Conventions Plus online booking tool

http://conventionsplusbookings.staralliance.com/trips/StarHome.aspx?meetingcode=TP06S17

Registered participants plus one accompanying person travelling to the event can qualify for a **DISCOUNT OF UP TO 20%**, depending on fare and class of travel booked.

The participating airlines for this event are: ANA, Adria Airways, Aegean Airlines, Air Canada, Air China, Air India, Air New Zealand, Asiana Airlines, Avianca, Croatia Airlines, EVA Airways, EgyptAir, Ethiopian Airlines, LOT Polish Airlines, Scandinavian Airlines, Shenzhen Airlines, South African Airways, TAP Portugal, THAI, Turkish Airlines, United. Discounts are offered on most published Business and Economy class fares, excluding website/internet fares, senior and youth fares, group fares and Round the World fares. When making your travel plans, please present confirmation of your registration or proof of attendance for the Congress.

Special procedures to be followed for travel to/from Japan. Discounts may be offered by the participating airlines on their own network. To obtain these discounts please contact the respective carriers' booking office. Contact details can be found on http://www.staralliance.com/en/convention-delegates under "Conventions Plus Booking Contacts". Please quote the event code TP06S17 for ticket reservation.

Travel from airport to City Centre Bus There is a bus network from the airport that offers services to passengers who are travelling to various destinations from the airport. If travelling to coastal resorts of Estoril or Cascais the Scotturb airport shuttle is the best option for you. A ticket to the city centre should cost c.€1.35.

- AEROBUS: Linking the Airport to downtown Lisbon and Cais do Sodre (every 20 minutes from 7 a.m. to 9 p.m.)

- CARRIS BUSES: No. 5, 8, 22, 44, 45, 83,

Taxis

Taxis are available outside the Terminal Building.
The general charge is c. €15-€20 to the centre of Lisbon.

Travel to Congress Venue by Tram and Bus

Congress venue is accessible by bus and tram from the city centre.

SOCIAL EVENTS

Thursday 28th September - 18:30-19:30 WELCOME RECEPTION

Venue: Pátio de Galé, Lisbon

Meet colleagues and friends at a Welcome Reception hosted under the beautiful and historic Pombaline arcades of Patio de Gale on the western side of Lisbon's celebrated 18th Cetury Comercio Square. Drinks and Canapés will be served.

Reception Tickets: 1 Ticket is included in a Full Registration Fee and Extra Tickets available to book on the Registration form and are €30 per person to include Drinks and Canapés. Patio de Gale is centrally located in Lisbon and accessible for public transport and is surrounded by many restaurants. Coaches depart Lisbon Congress Centre and

Marriott Lisbon Hotel; please refer to final programme for timings. There is no return coach transfer.

Friday 29th September – 20:00-23:00 CONGRESS DINNER

Venue: Palacio Xabregas

Join together for a special evening at the Palace of Xabregas located to the east of Lisbon. Built by the famous Portuguese sailor and aristocrat Tristão da Cunha at the end of the 16th Century, the Palace of Xabregas was **the official residence of the Portuguese Royal family**, and was one of a few buildings that survived the earthquake of 1755, which destroyed the rest of the city. The walls of the Palace are adorned with paintings and artwork and the Palace has **one of the largest private collections of tiles in Portugal**.

Gala Dinner Tickets: €90 per person to include entrance to Palacio Xabregas, Cocktail Reception, 3-Course Dinner and Wines by exclusive Penha Longa Catering, Entertainment and Return Coach Transport to the

Marriott Congress Hotel.

GENERAL CONGRESS INFORMATION
